Empathy Map Canvas

An empathy map helps to understand the user's behavior, needs, and problems while handling employee data manually.

User: HR Manager

Thinks

- **Employee data management is time-consuming**
- **Manual work leads to errors**
- **Need a faster and efficient system**

Sees

- **Multiple Excel sheets and paper records**
- **Data duplication and confusion**
- **Lack of proper system**

Hears

- **Complaints from employees about delays**
- **Management asking for quick reports**
- **Team members struggling with data**

Says

- **"This process is too slow"**
- **"We need automation"**
- **"There are too many errors"**

Does

- **Maintains records manually**
- **Updates employee data repeatedly**
- **Checks and corrects errors**

Pain

- **Time-consuming process**
- **High chance of mistakes**
- **Difficulty in accessing data**
- **Work overload**

Gain

- **Fast and automated system**
- **Accurate data management**
- **Easy access to employee details**
- **Reduced workload**
